Code	129
Wanneer	01/10/2024 tot 14/10/2024
Uur	09:00 tot 16:00
Waar	Online
Prijs	€ 425,00 - € 340,00 voor participanten
Uiterste inschrijvingsdatum	30/09/2024
Aantal uren vorming	11,00 uur

Extra info

Niet te missen, want ...

- "Heel **praktische workshop** die van mij zelfs 3 dagen mocht duren."
- "Veel **interactie**, veel **voorbeelden**, fijne spreekster met veel ervaring uit de praktijk en heel relevante workshop."
- "Positief, afwisselend, heel praktijkgericht met **veel ideeën** voor eigen groepstherapie."

Inhoud

"We are hardwired to connect with others, it's what gives purpose and meaning to our lives." - Brené Brown

There are ever increasing options and solutions offered by hearing technology, with more ways for children and teenagers to connect wirelessly than ever before. However this is still no magic adaptor for getting tasks done in the classroom and for making and keeping friends. No magic software to work out how to prioritise and plan homework or stay on task when our focus wanders. And how do we teach our students how to interpret the thoughts and feelings of those around us who help us learn how to socially problem solve and multi task? Our measure for success needs to extend beyond clear speech and hearing conversations and include the skills needed to regulate emotions, plan for the future, remember what we have learnt and thrive socially.

So this workshop will address how we can support these vital skills for getting tasks done and thinking socially. We will consider the range of skills needed with an in-depth focus on theory of mind and executive functions. We will explore how these impact our deaf children's abilities to thrive academically and socially. This will include practical tools and resources to grow social thinking principles and off the shelf ideas for working on executive functions with the children and teenagers.

From this workshop we are hoping you will:

- Gain knowledge of latest trends and current research into social competence.
- Connect with new ideas for growing social competence in a range of age groups.
- Have a working knowledge of executive functions and how to apply it one to one and in groups.
- Get a chance to explore resources for working on executive functions and think on how to apply them where you work.

- Get an overview of what the Social Thinking Programme and smiLE Therapy is about and what tools you can go away with and use.
- Hear about ideas for engaging with families around social thinking.
- Engage in interesting discussions around how to create groups and manage the dynamics and different ages and abilities.
- Share and reflect on your daily practice with others.
- Build a resource folder with materials and tools to use in your daily practice.

Opgelet! Deze workshop wordt volledig in het Engels gegeven.

Door wie?

Diana Harbor

Hear Together (Verenigd Koninkrijk)

Speech & Language Therapist and Educational Audiologist

Diana is dual trained as a Speech and Language Therapist and Audiologist. She started work as an audiologist and research associate in 1999, working for the MRC Institute of Hearing Research. In 2001 she joined the Nottingham Paediatric Cochlear Implant Programme (now NAIP) as a specialist speech and language therapist.

In 2006 Diana joined The Ear Foundation developing the education programme, delivering courses and creating education resources. She also co-led activities and summer residentials for teenagers with hearing loss. Diana is currently part of Hear Together, where she leads on training as well as supporting the family and teens programme. She also runs her own independent speech therapy practice, Khuluma.TLC as well as consulting for a local hearing support service.

Voor wie?

Deze tweedaagse online workshop is relevant voor hulpverleners die werken met kinderen en jongeren (leeftijd van 4 tot 18 jaar) met gehoorverlies. Er is een focus op kinderen/jongeren die toegang hebben tot hoorttechnologie, maar er komen eveneens onderwerpen aan bod die relevant zijn voor professionelen die werken met kinderen met ASS waarbij geen gehoorverlies is vastgesteld. **De workshop gaat door in het Engels, dus kennis van het Engels is vereist.**

Over wie?

4 - 18 jaar

Praktisch

Documentatie en hosting door Sig-medewerker inbegrepen.

Uurregeling van de dag:

- 9.00 - 10.15 uur
- pauze
- 10.30 - 12.00 uur
- pauze

- 13.00 - 14.15 uur
- pauze
- 14.30 - 16.00 uur

Je volgt deze online workshop via het platform **Zoom**. Je krijgt op 30/09 een e-mail met een link naar de online workshop en wat praktische informatie. **Kreeg je op 30/09 om 14 uur nog geen link via e-mail? Neem dan contact op met ons via info@sig-net.be.**

Bij online vormingen vragen we om te werken met één toestel (laptop, tablet, smartphone) per deelnemer. Meerdere deelnemers per toestel is niet toegestaan.
